

# QUALITY POLICY

Our goal is to be the supplier of choice for premium car manufacturers offering best in class quality for interior decorative trim and functional components

- We take our customer's quality requirements seriously
- We adhere and strongly commit to legal and industry requirements as well as the latest state of the art technical standards
- We promote an open failure culture, to learn from past problems and continuously improve our products & processes
- Our Integrated Management System helps to ensure that all our processes and instructions are up to date & available
- We take decisions based on facts & figures and commit to structured problem solving
- We monitor & improve the quality of our suppliers & our own processes, in order to react to deviations immediately
