

Our goal is to be the supplier of choice for premium car manufacturers offering best-in-class quality for interior decorative trim and functional components.

To reach our goal we:

- continuously build our quality management system according to our customer's quality requirements;
- adhere and strongly commit to legal and industry requirements as well as the latest state-of-the-art technical standards;
- promote an open failure culture, learn from past problems, and commit to continuously improving our products and quality management system to follow zero failure strategy;
- make decisions based on facts & figures and are strongly driven by structured problem-solving;
- monitor the quality of our processes and our suppliers to react to deviations immediately, continuously improve and achieve customer satisfaction
